

# SALES AND MARKETING ENABLEMENT

## Solution Sheets

A solution sheet is an essential customer facing 2-page sales and marketing document that communicates your unique offer, as well as the value of a product or solution. The solution sheet highlights the offer definition, its value proposition, key benefits and features of your solution, and specific calls to action for purchasing. Extra Mile Marketing takes complex language and jargon about your solution and creates C-Level solution sheets that provide clarity for both internal sales teams and external audiences. These are great for leave-behinds, downloadable assets, or for training internal teams.

To discuss options for a solution sheets to help your team achieve their sales goals, send us a quick [email](#) or call us at (425) 746-1572, and we'll set-up a meeting.
